

Minnesota Pollution Control Agency Feedlot Program

2017 Annual County Feedlot Officer Report Supplemental Information Page

January 1, 2017 – December 31, 2017

County Name:

Rice County

Work Plan Inspection Goals

Please describe the progress made in meeting your 2017 work plan inspection goals. You must provide quantitative results for each inspection production site and land application goal listed in your work plan.

- The list of feedlots targeted for the 2017 work plan directly reflects the work that remained from the previous work plan from 2016.
- The number of feedlots inspected represents the focus type of feedlots planned for 2017 fairly well. 9 inspections were conducted at feedlots over 300 AU, 3 inspections at OLA sites, 2 inspections at shoreland feedlots and at least 10 sites that have not yet been inspected.
- 11 land application reviews were conducted at those feedlots that were visited for facility compliance. Level I land application reviews were conducted at facilities under 300 AU and yet required to keep records (over 100 AU at the facility).

Owner Assistance

Please report on the following owner assistance activities conducted in the past year. Include **date and description** for each activity listed.

- Workshops or trainings hosted and/or co-sponsored by the county feedlot officer (CFO):
 - Joint meeting for feedlot owner/operators held in Austin February 23, Zumbrota March 1, and Blooming Prairie March 9. Each year a variety of pertinent topics are presented that address feedlot related regulations
- Newsletters/direct mailings sent to feedlot owners:
- Feedlot articles placed in local newspapers:
- Other information and outreach activities not identified above:
