Additional Performance Credit Calculations and Supplemental Information

Describe below the progress made in meeting your program year work plan inspection goals. You must provide quantitative results for each compliance inspection and land application goal listed in your work plan.

The number of feedlots inspected represents the focus type for feedlots fairly well. There were no construction permits or inspections conducted this year. Five inspections were done on feedlots with more than 300AU, and four inspections conducted at sites within the shoreland classification. Land application reviews were conducted at those feedlots meeting the 100AU threshold. Four In-field Land Application Inspections were conducted 3/4 were compliant with application setbacks.
