Location of Proposed Work _____

General Description of Proposed Work _____

(Attach diagram of site and proposed work to the back of this application)

By making application to work in the right-of-way, applicant agrees to the following conditions:

1. No work relating to this application may commence until the application is approved and the permit is issued.
2. Prior to commencement of work, flags, flares and barricades must be erected as recommended by the Rice County Highway Department.
3. No foreign materials such as dirt, gravel or bituminous material shall be deposited or left on the roadway.
4. No changes or alterations to the work may be made without the written permission of the Rice County Highway Department.
5. All work shall conform to the standards of the Rice County Highway Department.
6. Upon completion of project, the roadway and right-of-way shall be cleaned of all debris. Any materials not removed by applicant shall be removed by the Rice County Highway Department or designee at the applicant's expense.
- 7. Upon notification that the project is complete, the Rice County Highway Department shall make a final inspection. Any necessary changes must be completed by the applicant before final project approval is granted.**
- 8. At the discretion of the Rice County Engineer a Certificate of Insurance and/or a Bond may be needed.**

Projects resulting in a permanent structure in the county road right-of-way are subject to the following additional conditions:

1. The Rice County Highway Engineer has confirmed that the structure is located outside of the clear zone and will not result in an obstruction to the traveling public.
2. While the applicant is completing the permitted work, the Rice County Highway Department shall continue to perform normal highway maintenance or construction activities. If conflicts occur, applicant shall cease permitted work until the Rice County Highway Department has completed their normal maintenance or construction activities.
3. If the structure will be constructed over any existing drainage pipes, culverts or other water carrying devices, applicant specifically agrees and understands that any future maintenance, repairs or improvements performed by the Rice County Highway Department that results in damage to the applicant's structure will be repaired at the applicant's expense.

4. Future road improvements may also result in damage or removal of the applicant's structure. Applicant specifically understands that the granting of this permit confers no legal or equitable interest in the property and if the structure is removed for any purpose whatsoever, including road improvement, the Rice County Highway Department has no obligation or duty in the future to grant applicant a permit for the proposed structure.
5. All maintenance or improvements of the permitted structure are the responsibility of the applicant.

After reading and accepting the above-identified conditions, I/we hereby request that the Rice County Highway Department grant permission to work in the right-of-way.
